PROFILE

Junior Frontend Developer with strong hands-on experience building modern Single Page Applications using Angular, React, JavaScript, and Node.js. Graduate of SoftUni (JavaScript Web Developer program) with practical experience in REST APIs, authentication systems, and full-stack application architecture. Comfortable working with Git, databases (MongoDB, MySQL), and responsive UI frameworks such as Tailwind and Bootstrap. Passionate about building clean, user-friendly web applications and continuously improving development skills.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Angular
- **Styling:** Tailwind CSS, Bootstrap, Angular Material
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MongoDB, MySQL, Mongoose
- **Tools:** Git, GitHub, NPM, Postman
- **Other:** Firebase, Back4App, JWT Authentication, Agile basics
- **Licenses:** British passport.

PROJECTS

CineZone (Angular SPA)

- Built a movie community and watchlist application using Angular
- Integrated TMDB API for dynamic movie data
- Implemented authentication, comments, likes, and watchlist features using Back4App
- Focus: API integration, state management, user interaction

Sprout Hub (React SPA)

- Developed a gardening forum platform with full user authentication
- Implemented posts, categories, likes, and comments system
- Used Back4App for backend services and Firebase for deployment
- Focus: React components, authentication flow, CRUD operations

Veluxe Motors (React SPA)

- Built a car rental marketplace application
- Implemented search filters, booking system, and user accounts
- Designed responsive UI with focus on usability and clean UX
- Focus: React routing, filtering logic, UI/UX design

MagmaHaven (Node.js + Express)

- Developed a full-stack forum application using Express and Handlebars
- Built RESTful backend with MongoDB and Mongoose
- Implemented authentication using JWT, bcrypt, and cookies
- Focus: Backend architecture, security, database design

EDUCATION

Software University (SoftUni)

JavaScript Web Developer Program (2023 - 2025)

- Frontend & backend development (Angular, React, Node.js)
- OOP, REST APIs, databases, and SPA architecture
- Real-world projects simulating production applications

Udemy - Web Developer Bootcamp (2022 - 2023)

- HTML, CSS, JavaScript fundamentals
- DOM manipulation, Flexbox, Bootstrap
- Built multiple small web projects

Coventry University, UK

Bachelor of Arts (2011 - 2015)

PROFESSIONAL EXPERIENCE

Specsavers - Optical Assistant (2016 - 2023)

- Managed customer appointments and workflow organization
- Developed communication and multitasking skills in fast-paced environment
